

Digital Photography Overview

In this introductory course, taught by Mike Bisom, participants will be given a broad overview of the many aspects of photography. Starting with an overview of the many different types of cameras and their similarities and differences. Participants will discover and learn terminology, such as "exposure triangle", "depth-of-field", "white balance", "histogram", and more. Tips will be shared on how to improve photography. This is not a hands-on class' please do not bring a camera.

Thursday, March 15 | 7:00 PM - 9:00 PM

\$25.00 | Burlington High School - Library
