In keeping with the mission of the Burlington Area School District, our mission is to assist in the lifelong development of the intellectual, physical, vocational, creative, cultural, and social capabilities of our citizens using resources within the Burlington Area School District. Our primary commitment is to develop a lifelong quest for learning by working in partnership with all citizens of the Burlington Area School District to meet our mission. We will respond to and answer local needs through a well outlined and developed plan of activities, classes and programs.

The School Board recognizes the mission, goals, and objectives of the Community Education Department and the development of outlets for lifelong learning. These outlets must meet the needs of the Burlington Area School District to enrich personal lives, while improving the quality of life in the school district community.
