

## INSTRUCTION

### Series 300

Policy Title . . . SCHEDULING EXTRA-CURRICULAR ACTIVITIES Code No. 322.1

It shall be the policy of the School Board to arrange all extra-curricular activities in such a manner as to avoid placing the student in conflict between school or community groups' scheduled practices, performances or participation.

In keeping with this policy, Wednesday evening after 6:00 P.M. and Sunday morning shall be held clear of all school activities.

Upon occasion, unusual circumstances may necessitate a request for a Sunday afternoon or evening activity. After reviewing all other scheduling options, the superintendent may approve this request if he/she is convinced that participation on the part of students will be voluntary. There must also be assurance that students who choose not to participate will not be penalized in any way or have undue pressure placed upon them by any staff members.
