### Series 300

Policy Title ... SELECTION OF LIBRARY/MEDIA MATERIALS Code No. 361.2

The library/media centers in the schools exist primarily for educational purposes and the materials should support classroom activities, become an integral part of the curriculum, offer enrichment for students and provide resource material for the faculty. In addition, materials should be provided to attract students to reading, viewing and listening as a source of pleasure and recreation over and above the study of content areas. Materials should be selected that will foster reading as a lifelong activity.

The school district shall not discriminate in the selection and evaluation of instructional and library materials on the basis of sex, race, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation or physical, mental, emotional or learning disability. Discrimination complaints shall be processed in accordance with established procedures.
