Unit 3 - Mole Exam Review

- Across
 1. the sum of the atomic masses of the atoms in a molecule
 3. quantitative relationships in chemical reactions
 19. the relative mass each element contributes to the mass of the compound as a whole

- 10. the relative mass each element to be a bown
 2. represents the number of atoms of C in one mole
 4. starting substances in a reaction
 5. used to give correct formulas
 6. shows the simplest ratio of atoms in a molecule
 7. compounds that have water molecules that bond to the molecules, becoming part of the crystal
 8. supplies the mole ratio is a mass-mass problem
 9. ending substances in a reaction
 11. used to balance chemical reactions

11 of 11 words were placed into the puzzle.
