

Why Choose Montessori?

A Montessori education gives students the freedom to seek out knowledge. Montessori students build relationships with their peers and with their teachers. These relationships guides individual growth. Students work at their pace in age groups - 4K/5K, grades 1-3, and grades 4-6.

All BASD Montessori teachers are Wisconsin state certified have received specialized training from accredited American Montessori Society training centers .

Learning Materials

Hands-on Montessori materials help students grasp academic concepts. Children start with concrete learning and move towards abstraction.

The Montessori Program follows BASD essential skills and state standards.

To Enroll

4K/5K enrollment begins in January each year. New 4K/5K students may request Montessori when enrolling.

Students in levels 1-6 or who transfer in to the district may request Montessori placement through the Principal.

Parents Say...

What I see of the Montessori method is that it emphasizes civility, respect for others, and global learning.

Montessori Method

● Follow the Child

Follow the child means allowing children to experience and engage in activities independently. Montessori teachers present lessons to small groups and create an environment encouraging self-direction.

● Learning from Each Other

Students learn that their classroom is a community and they are responsible for caring for one another. They learn that their classroom is one small group within a larger community. Information is presented to children in a global perspective with history and cultures at the foundation for greater understanding, community, and peace.

● Practical Life Area

The Practical Life Area contains materials that build order, concentration, coordination, independence, responsibility, and self-control. All of the work available involves purposeful movement.

The Montessori Experience

Students have a large block of work time to manage their academic tasks and to immerse themselves in deep learning. From this, children learn time management, responsibility, and independence.

basd.k12.wi.us/learning/montessoriphilosophy.cfm

Education is a natural process carried out by the child and is not acquired by listening to words but by experiences in the environment.
